Work experiences

<i>Period</i>	<i>Company</i>	<i>Role</i>
16 th October 2017-2019	Fonderie Alluminio Tazzari SpA	<u>Quality Manager</u> Management of internal and external quality, supervision of System management for Quality, Environment and Safety regimentations. Coordination of quality department team (10 people).
September 2017	ZAPI SpA	<u>Supplier Quality Engineer</u> Involved on supplier development with application of automotive tools as Audits, Kaizen activities, Corrective Actions Implementation, PPAP, KPIs monitoring, 8D, APQP
2016-2017	Mitsubishi Turbocharger and Engine Europe BV	<u>Supplier Quality Development Engineer</u> Part of Quality team, consisting of Project Quality Engineers and Supplier Quality Development Engineers and focused on the commodity of compressor covers (aluminum casting and machining). Main tasks of my job are to develop and execute the entire Supply Chain development planning, reviewing continuously our suppliers' products and processes in terms of quality, productivity, lead-time, and cost. Most of our suppliers are based in Eastern Europe, Germany, and Italy, but also China and India, (about 50% of the time) with which I have daily contacts by phone and regular visits to their plants in order to manage Non-Conformities and to ensure timely mitigation of process design and manufacturing issues. Internally Mitsubishi activities are carried out in collaboration with Purchase, Engineering, Production, Quality and customers for all supplier concerns
2015-2016	ATTI SPA	<u>Machining Quality Manager</u> Customer and Supplier management in matters Quality and Projects Development. QSM and quality policy development. Verification and Implementation of corrective and preventative action: continuous improvement. Process and product Audit; Customer claim management (8D procedure), Problem solving; scrap analyses; supply chain quality; PPAP; APQP; Process FMEA; MSA; SPC; Metrology and Quality department coordination (7 people team).
2013-2015		<u>Project Manager (Sale & Projects Development Dept.)</u> Prototypes phase and of supply chain (management of orders and early economic negotiation in matter of equipment and samples) coordination Technical development of the project with Customers. Management of products launch and first sampling, PPAP and APQP phases.
2012-2013		<u>New Products Introduction (NPI)</u> Project activities management, prototypes process planning and external supplier coordination. APQP and PPAP activities management.
2010-2012		<u>Customer Quality & Quality Assurance</u> Customer of complaints, 8D problem solving, analysis of scraps, quality of supply chain, PPAP, Process and product internal audit
